

# Welcome in Cork

Hi everyone, my name is Janet and I've currently been living in Cork for 5 months. What is it like, you ask? Well, that's exactly what I'm going to tell you in my experience report. specifically, what my host family is like, where I work, what my tasks are, what I do in my free time and my highlights from the 5 months I've been living in Cork.

Starting with the host family I have to say that I have an excellent host family consisting of a host mother, a host father and a host brother. All of them take great care of me. Everyone is extremely kind and welcoming even when my parents came to visit me, they invited my parents for a meal, and we just had a great time together. We also have dinner together every evening at the same time and we chat all together which is great.

To go to work, my host mother prepares lunch for me every morning which I can then take to work. I work in Wisetek, it is an IT company that buys, refurbishes and resells used electronics. The team is extremely friendly, but I must say that since the company is so big, I don't have much contact with my co-workers. My tasks are mainly administrative work.

In my free time I often go on trips with my best friends who I met in France and Ireland. They all do the KV Plus as well. The four of us go on amazing trips when

the weather plays along, or we do something together in the city.  
Unfortunately, it was not yet warm enough for me to go for a swim in the sea.

Finally, I can't name anything specific as a highlight because all experiences and memories are my highlights, and I am glad that I have the opportunity to participate in this program. Now I must enjoy the last month I have left here in Ireland before I continue with the routine in Switzerland!  
Best regards from Ireland. :)
