

MY LIFE IN IRELAND

My name is Till, I'm 18 years old and I'm currently living in Ireland. I came here at the beginning of August with a whole class of kv plus students. We met at the airport and then flew to Dublin together. When we arrived in Tralee, we met our host families for the first time. For the first few days it was special for me to live with another family, but now it feels normal and like my second home. In my host family I have a brother and a sister, they're very nice and they talk to me a lot. This makes it easier for me to speak and understand English.

The school is very supportive and we are working directly towards our Cambridge exam, which we will take in December. As well as the English lessons, the Celtic School also organises nice trips and events for us. It gives us a great opportunity to explore all of Ireland and get closer to the culture. We do things like city tours, boat trips, beach evenings, Irish dancing, film nights and so on.

As well as school, we also get work experience. My job is in a company called Cremur. It's a company that sells stoves, fireplaces, bathtubs and so on. My job is in administration and I really like working there. All my colleagues are helpful and supportive. We usually work every day, but only from 10am to 4pm, so we have a lot of leisure time.

There's a lot to do in my free time. First of all, I've started going to the gym and swimming. Then our group usually goes on trips and has group meetings every weekend. Every now and then we go with the school, but sometimes we also go on our own. These trips are perfect for improving our English and telling other people about our life in Switzerland. We adore Ireland and love to explore it. It's such a beautiful country with so many things to do. The Irish people are very friendly, talkative and outgoing.

I'm grateful to have been given the chance to do the kv plus and I don't regret it. I highly recommend that you do the same if you get the chance!

Cliffs of Moher

Tour to shopping mall

Breakfast in Killarney

Group evening at banna beach

School trip to dingle

Get to know locals
